

# What will YOU create?

## Give your boundless imagination the power it deserves, with HP technology from New Media AV.

Designing in 3D? Rendering in real time? At New Media Audio Visual (NMAV) we understand that when you invest the time and the talent, it pays to invest in technology that keeps up. We're a trade distributor of technology specifically for the video editing, effects and audio market sectors. We source products from the industry leaders worldwide, like HP, and bring them together in one place.

When it comes to creative power, you'll see the difference HP makes to your output. When it comes to adding superb advice and support to the right technology, you'll understand why it makes sense to choose NMAV.

Optimised for your industry:  
We're ISV\*-certified and the only distributor to stock all configurations for high-level software.

Convenient for you:  
We offer next-day delivery from our 2000 resellers nation-wide.
