Product Benefits

- Eliminate viruses and spyware with powerful protection – Norton™ AntiVirus delivers proactive protection that stops online threats before they can infect your computer.
- Stay protected without interruptions or slowdowns – Superior performance and fast scan speeds protect you without slowing down your computer. Plus, it runs in the background, so it won't disrupt your work or play.
- Get up and running fast with quick set-up and easy-to-use features – Installs quickly with a single mouse click – and proactively tells you if files and applications are safe, or may slow down or crash your computer.

Performance Highlights

Rest easy knowing you are protected, thanks to powerful layers of smart protection proactively detecting and eliminating threats, plus a range of other helpful features:

- Norton Protection System, with five patented layers of protection, quickly and accurately detects and eliminates viruses and spyware. ◀ **EXCLUSIVE**
- Browser Protection proactively protects you by checking for and blocking online threats as the browser loads, to stop online threats before they can do damage.
- SONAR Behavioral Protection & Live 24/7 Threat Monitoring stays ahead of, detects and eliminates new threats that haven't even been invented yet by watching your PC for suspicious behavior. ◀ **IMPROVED**
- Threat-Removal Layer targets and gets rid of hard-to-remove threats that less sophisticated products often miss.
- Insight improves performance by identifying safe files and only scanning unknown files. ◀ **EXCLUSIVE**
- Download Insight 2.0 protects you from dangerous applications before you install them by telling you if they are harmful or unstable.
- Insight for Personal Information reviews a website's reputation and lets you know if it is safe to enter your personal information, so you can be confident it won't be stolen by cybercriminals. ◀ **NEW**

- Cloud-based Norton Management lets you fix, update, renew and install Norton AntiVirus on other PCs over the Internet with a few simple clicks. It also brings together your Norton protection for other devices, like your Mac® computer, smartphone or tablet, in one place. ◀ **EXCLUSIVE**
- Network Threat Protection detects threats as they travel over a network and eliminates them before they can reach your computer. ◀ **IMPROVED**
- Always have the up-to-date product version. Norton automatically sends you important product and feature updates throughout the year. The latest version installs without you needing to do anything. ◀ **NEW**
- FREE 24x7 Support offers you expert help and answers by phone, live chat, or online whenever you need them.¹
- Bandwidth Management 2.0 automatically adjusts Norton data usage updates when you connect to 3G networks to avoid using up your monthly data allotment or causing overage fees. ◀ **IMPROVED**
- Vulnerability Protection stops cybercriminals from using security holes (vulnerabilities) in applications to sneak threats onto your PC.
- Norton Pulse Updates refreshes your protection every 5 to 15 minutes - without disrupting you - for up-to-the-minute protection against the latest threats. ◀ **EXCLUSIVE**
- Norton Control Center gives you easy access to program settings and Web-based Norton services from your choice of a standard detailed view or a simplified view.

1-Year Protection: With this service, you receive the right to use this product on one PC or on the specified numbers of PCs during the service period, which begins upon initial installation and activation. This renewable service includes protection updates and new product features as available during the service period, subject to acceptance of the Symantec™ Licence Agreement included with this product and available for review at www.symantec.com Product features may be added, modified or removed during the service period.

¹ Symantec provides free 24x7 chat and phone support for a period of one year. Continuing support is available with an active service period subscription. Renewing your service period subscription and updating to the latest product version may be required to access support. NortonLive Services sold separately. For full details and to access support, go to www.symantec.com/globalsupport
